TruMarkZ

The Operating System for Trust

TruMarkZ is a Trust Infrastructure Platform that verifies anything, issues tamper-proof digital credentials, and makes them searchable and shareable.

Trust is no longer claimed. It is proven.

- **Secure** — Tamper-proof & cryptographically signed credentials
- **Searchable** — Discover and verify instantly
- **Shareable** — Portable across platforms and borders
- **Reusable** — Verify once. Trust everywhere.

ONE PLATFORM. ENDLESS TRUST.

1 VERIFY ANYTHING

People, Products or Services

Workers / Individuals
Identity, employment, skills, education, background & more

Products / Assets
Origin, quality, compliance, warranty & more

Services / Organizations
License, certification, compliance, track record & more

2 ISSUE TRUST CREDENTIALS

Tamper-proof. Cryptographically Secured.

TRUMARKZ CREDENTIAL

Verified Worker
ID: TMZ1234567890

- Identity Werifed
- Education Verified
- Employment Verified
- Background Verified

Issued: 20 May 2024

TAMPER-PROOF | VERIFIABLE | TRUSTED

3 SEARCH, VERIFY & SHARE

Instantly. Anywhere.

THE TRUST INFRASTRUCTURE LAYER

Universal Verification
Verify any entity using multiple trusted data sources & AI

Tamper-Proof Credentials
Cryptographic signing & distributed ledger ensures integrity & authenticity

Trust Graph
Build a real-world trust graph connecting verified entities & relationships

Search & Discovery
Powerful search to discover trusted entities across ecosystems

Interoperable & Portable
Shareable credentials across platforms, borders & industries

WHY NOW?

The world runs on digital transactions between unknown parties.

Traditional verification is fragmented, slow, manual and easy to forge.

TruMarkZ turns trust into a scalable infrastructure for the digital economy.

OUR VISION

A trusted world where every entity is verified, every claim is provable, and trust is the default.

NETWORK EFFECT FLYWHEEL

OUTCOMES

- Reduce risk & fraud
- Increase speed & efficiency
- Lower cost of trust
- Enable new business models
- Build a global trust economy

WE ARE BUILDING
THE OPERATING SYSTEM FOR TRUST
From verification to reputation infrastructure.

People you can trust | Products you can trust | Services you can trust | A world that can trust

Verify once. Trust everywhere. | Trust is Infrastructure. TruMarkZ is Building It.

TruMarkZ

The Operating System for Trust

Verify Anything. Issue Trust. Share Everywhere.

Verify → Issue → Share → Trust

- Tamper-proof & Blockchain Secured
- Searchable & Instantly Verifiable
- Shareable via QR or Link
- No App Download Needed

1 ORGANISATIONS & BUSINESSES

Verify in bulk. Issue digital certificates.

Verify 200 drivers? Upload an Excel and TruMarkZ verifies each one.

Excel Upload → 200 Verified

Organic fertiliser company? Get a digital certificate proving no harmful chemicals used.

VERIFIED
No Harmful Chemicals

Silk manufacturer? Credential proves no silkworms were killed — buyers can scan before purchasing.

VERIFIED
No Silkworms Killed

Any industry, any product, any service can have a verified credential.

Food | Textile | Logistics | Services | More...

2 INDIVIDUALS

Create. Own. Share your verified identity.

Engineer with 2 years of experience can create their own verified credential.

VERIFIED
EXPERIENCE CREDENTIAL
Software Engineer
2 Years Experience
Company: ABC Tech
Verified on TruMarkZ

Nurse can build a skill tree credential to send to hospitals and recruiters.

SKILL TREE
Patient Care
ICU Care
Medication Management

Fresher can show their degree, courses, and projects — all verified on blockchain.

VERIFIED
B.Tech Computer Science
University: XYZ University
Year: 2024
Blockchain Verified

Anyone can be both an 'organisation' and an individual on TruMarkZ.

Organisation + Individual

3 EMPLOYERS & PUBLIC

Verify before you trust. Anywhere, anytime.

A traveller can scan a driver's QR code to check their verified record before getting in.

DRIVER VERIFIED
Ramesh Kumar
SCAN TO VERIFY

A hospital can search for a nurse and view her credentials before hiring.

Search Nurse
Sneha R.

HOW TRUMARKZ WORKS

Data Submission — Upload docs / data (Excel, Form, API, or Manual)

→ **Verification Engine** — AI + Human + Trusted Sources verify each record

→ **TruMarkZ** — Trust Infrastructure Platform (Blockchain Secured)

→ **Issue Credential** — Tamper-proof digital credential with QR & unique link

→ **Share & Verify** — Share anywhere. Anyone can verify instantly

TYPES OF CREDENTIALS

Identity | Experience | Education | Skills | Compliance | Product Claim | Service Quality | Environmental

WHY TRUMARKZ IS DIFFERENT

- **Universal:** For any industry, any product, any service, any individual.
- **Tamper-proof:** Blockchain + cryptographic signing ensures integrity.
- **Bulk Verification:** Upload and verify hundreds or thousands at once.
- **Cost Effective:** Micro-payments (₹5–₹10) for quick verifications.
- **Open & Accessible:** Verify using QR or link on any device.
- **Interoperable:** Easy integration via API for platforms & workflows.
- **Trust Network:** Build a global trust network of verified entities.

INNOVATIVE SUGGESTIONS (THE NEXT EDGE)

Trust Score & Reputation
Dynamic trust score based on verified data & behavior.
850 ★★★★½

Smart Contracts
Automate agreements, renewals & compliance.

AI Fraud Detection
AI detects anomalies & fraudulent documents.

Credential Wallet
Users store & manage all credentials in one place.

Social Share & Embed
Share on LinkedIn, websites, resumes, etc.

Industry Templates
Ready-made verification templates for any industry.

TRUST IS THE NEW INFRASTRUCTURE.

TruMarkZ is building the world's trust layer — one verification at a time.

Any Entity | Any Industry | Any Time | Anywhere | Anyone

ONE PLATFORM. ENDLESS POSSIBILITIES. LIMITLESS TRUST.

TruMarkZ

Verify Anything. Issue Trust. Share Everywhere.

ORGANISATION FLOW — STEP BY STEP

An 'Organisation' can be anything: a transport company, a nursing college, a manufacturer, a hospital, an association with thousands of drivers, or even an individual who wants a verified credential for themselves.

- Tamper-proof & Blockchain Secured
- Fast Approval (Target < 24 Hours)
- Shareable via QR or Link
- No App Download Needed
- For Organisations & Individuals

STAGE 1 — ORGANISATION REGISTRATION & VERIFICATION

Organisation

Individual (Optional)

1 REGISTER ORGANISATION

Enter organisation details.

Organisation Registration

Organisation Name: SafeWay Transport Pvt. Ltd.

Industry (Dropdown): Transport & Logistics

Address: 123, Business Park, Pune, Maharashtra

GST Number: 27ABCDE1234F1Z5

Business Registration Number: U60231MH2020PTC123456

Official Email (OTP Verified): admin@safewaytransport.com — OTP Sent

☐ Register as Individual

Register Organisation

2 ORGANISATION VERIFICATION BY SUPER ADMIN

Super admin verifies the organisation using GST API check + official email OTP.

Verification Checks

GST API Check
GSTIN: 27ABCDE1234F1Z5
Status: Valid

Official Email OTP
admin@safewaytransport.com
Status: Verified

Organisation cannot upload data until approved.

Target Approval Time: < 24 Hours

3 ONBOARDING CONFIRMATION

Once approved, organisation receives confirmation and can start using the platform.

Your organisation account is live!

You can now log in and configure your verification plan.

Organisation: SafeWay Transport Pvt. Ltd.
Status: Approved
Approved On: 20 May 2025, 10:30 AM

Go to Dashboard

STAGE 2 — CONFIGURE PLAN & VERIFY ENTITIES (PEOPLE / PRODUCTS / SERVICES)

4 CHOOSE VERIFICATION PLAN

Select a plan that suits your organisation's needs.

Select Plan

- Basic — Upto 100 Verifications/month
- Standard — Upto 500 Verifications/month
- Professional — Upto 2000 Verifications/month
- Enterprise — Custom Verifications

Continue

5 ADD USERS (TEAM MEMBERS)

Add team members who can upload data and manage verifications.

Add User

Name: Rohit Sharma

Email: rohit@safewaytransport.com

Role: Verifier

Add User

Manage roles & permissions

6 UPLOAD DATA (BULK OR SINGLE)

Upload via Excel/CSV or add one by one.

Upload Excel / CSV

or

Add Single Record

Example Use Cases

- 200 Drivers Verification
- Nurse Records
- Product Certifications
- Student / Employee Data
- Any Other Entity

7 VERIFICATION PROCESS

TruMarkZ verifies each record using trusted data sources and AI + human validation.

- ID & Document Check
- Database & API Verification
- Background / Record Check
- AI + Human Validation
- Result Generated

You track real-time status of each verification.

8 ISSUE DIGITAL CREDENTIAL

On successful verification, a tamper-proof digital credential is issued.

VERIFIED CREDENTIAL

Ramesh Kumar
Professional Driver

- Address Verified

Issued On: 20 May 2025

Blockchain Secured

Credential can be shared via QR Code or Link. Anyone can verify instantly (No app download needed).

STAGE 3 — SEARCH, SHARE & VERIFY (BY ANYONE)

9 SHARE CREDENTIAL

Share credential with employers, clients, customers, or public.

QR Code | Secure Link | Email / WhatsApp

Share Example

https://trumarkz.com/verify/ABC123

10 ANYONE CAN VERIFY

Employers, clients, or public can verify in real-time.

Scan QR Code or Enter Link

or

Enter Credential ID / Link

Verify

11 VIEW VERIFIED RESULT

Instant, secure, and tamper-proof result.

Ramesh Kumar
Professional Driver
ID: TMZDRV12345678

VERIFIED

- Identity Verified
- License Verified
- Background Verified
- Address Verified

Issued On: 20 May 2025

Verified On: 20 May 2025 11:25 AM

Blockchain Secured

STAGE 4 — RENEWAL, REPORTS & COMPLIANCE

Credential Renewal
Set validity period & renew before expiry.

Reports & Analytics
Track verifications, pending, approved, rejected, expiry.

Compliance Ready
All records are encrypted, audit-ready & compliance friendly.

Notifications
Get alerts for expiry, renewal, re-verification & updates.

API Integration
Integrate with your existing systems via secure APIs.

BENEFITS FOR ORGANISATIONS

- Verify in bulk. Save time & cost.
- Issue tamper-proof credentials.
- Build trust with customers & partners.
- Reduce fraud & manual verification.
- Fully digital, secure & scalable.

TruMarkZ

One Platform. Every Entity Verified.
Trust Built. Everywhere.

WHO CAN USE?

Transport Companies | Manufacturers | Hospitals | Colleges & Institutions | Associations | Individuals

Verify Once | Trust Forever | Share Anywhere | Grow Together

TRUST IS INFRASTRUCTURE.
TRUMARKZ BUILDS IT.

TruMarkZ

Verify Anything. Issue Trust. Share Everywhere.

STAGE 2 — VERIFICATION PLAN CONFIGURATION

Configure your verification plan, see the exact per-unit cost, and set permissiong before you start verifying.

- Transparent Pricing
- API (Automatic) & Human (Manual) Checks
- Candidate Permission for Report Access
- Secure, Compliant & Scalable

4 SELECT INDUSTRY

Choose your industry to get relevant verification options.

- Transport (Drivers, Fleet, Logistics)
- Healthcare (Hospitals, Nursing, Pharma)
- Education (Colleges, Institutes, Schools)
- Manufacturing (Factories, Units, Suppliers)
- Security (Security Agencies, Guards)
- Agriculture (Farms, Produce, Equipment)
- Products / Services (Products, Compliance, Services)
- Others (Any other industry)

Continue

5 SELECT VERIFICATION CHECKS

Tick the checks you need. System shows API (Automatic) or Human (Manual).

VERIFICATION CHECKS	TYPE
Identity Check (Aadhaar / PAN / Govt ID)	API
Address Verification (Current Address Proof)	Manual
Police Clearance (Police Record Check)	Manual
Education Verification (Degree / Diploma / Cert.)	API
Employment Verification (Previous Employment)	API
Criminal Record Check (Court / Criminal Database)	Manual
Product / Compliance Check (Quality / Compliance / Labs)	Manual
Others (Custom) (Add any other check)	Manual

Back

API = Automatic (Real-time via API)

Manual = Human Verification

6 SEE PER-UNIT COST

Transparent per-unit cost breakdown. Agree to proceed.

PER-UNIT COST BREAKDOWN

Check	Type	Cost (₹)
Identity Check	API	₹ 25
Address Verification	Manual	₹ 30
Police Clearance	Manual	₹ 60
Education Verification	API	₹ 30
Employment Verification	API	₹ 25
Criminal Record Check	Manual	₹ 75
Consent Message (to candidate)	System	₹ 1
TOTAL PER UNIT (Per Person / Product)		₹ 246

Cost includes consent message (–₹1) when permission is required.

☐ I have reviewed and agree to the per-unit cost.

- Address Verified

Issued On: 20 May 2025
Blockchain Secured

6. Access Logged
All access is logged for transparency & security.

Access Log
Requested By: ABC Logistics Pvt. Ltd.
Accessed On: 20 May 2025, 11:25 AM
Purpose: Hiring
Status: Completed

IF CANDIDATE DOES NOT GIVE PERMISSION

Request Sent → No Response / Declined → Access Denied

Third party cannot view the report.

BULK VERIFICATION — OUR RECOMMENDATION

Pre-Consent from Organization
- Organization takes pre-consent from workers in their agreement.
- No individual messages needed for every record.

Real-time Consent from Candidates (If Required)
- System sends WhatsApp broadcast with consent link.
- One-time consent is taken for the batch.

Cost of consent message (–₹1) is included in the per-unit fee.

INNOVATIVE POINTS

- **Candidate-Centric** — Privacy by Design. Candidate controls who sees their report.
- **Secure & Compliant** — Permission-based access ensures data protection and legal compliance.
- **Audit Trail** — Every access request and consent is logged and tamper-proof.
- **Flexible Access** — Public search for general profiles, permission-based for sensitive profiles.
- **OTP + Time Bound** — Consent links are OTP verified and time-limited for extra security.
- **Scalable for All** — Works for individuals or bulk (1 or 1M+) verifications.

BENEFITS FOR ORGANISATIONS

- Pay only for what you need.
- Transparent per-unit cost. No hidden charges.
- Faster verification with API automation.
- Respect candidate privacy & build trust.

TruMarkZ
One Platform. Every Entity Verified.
Trust Built. Everywhere.

BENEFITS FOR CANDIDATES

- You control who can see your verified report.
- Your data is secure and never misused.
- Share only when you approve.

Verify Right | Pay Fair | Protect Privacy | Build Trust | Grow Together

TRUST IS INFRASTRUCTURE. TRUMARKZ BUILDS IT.

TruMarkZ

Verify Anything. Issue Trust. Share Everywhere.

STAGE 3 — DATA UPLOAD

Upload candidate / product data in bulk or as a single record.
System starts verification automatically.

- Bulk & Single Upload Support
- Real-time Preview & Validation
- Secure Image Handling (AWS S3)
- Fast, Accurate & Scalable

BULK UPLOAD FLOW

8 DOWNLOAD EXCEL TEMPLATE

System generates a customised Excel template based on the checks you selected.

Template Generated
(Education + Criminal + Identity)

Download Template

Template includes all required fields (superset) across selected checks.

#	Name	DOB	Address	ID Number	College Name	Grad. Year	ID Proof No.	Photo Filename
1	Ravi Kumar	12-05-1990	...	A1234567	ABC College	2015	ID987654	ravi_kumar.jpg
2	Priya Sharma	03-08-1992	...	B2345678	XYZ University	2016	ID876543	priya_sharma.jpg
3	Mohan Singh	21-11-1988	...	C3456789	LMN College	2014	ID765432	mohan_singh.jpg
...	...	...	...	...	...	...	...	...

Photo Filename Column:

- Enter filename only (e.g., ravi_kumar.jpg)
- Upload a ZIP file of all photos separately.

9 FILL & UPLOAD EXCEL + PHOTO ZIP

Fill the template with all records.
Upload Excel file + Photo ZIP together.

Drivers_Q1_200.xlsx (Excel File) + Photos_Q1_200.zip (ZIP File of Photos)

View Verification Status

Verification Status (Real-time)

Identity Check (API)	Completed
Address Verification (Manual)	In Progress
Education Verification (API)	Completed
Employment Verification (API)	Completed
Criminal Record Check (Manual)	Pending
Police Clearance (Manual)	Pending

SAME TRACKING EXPERIENCE AS BULK

- Real-time status per check
- Notifications on updates
- Download reports once complete
- Secure & tamper-proof credentials

Tracking Channels

Dashboard | Email Alerts | SMS / WhatsApp Alerts

IMAGE HANDLING (OUR SUGGESTION)

1 IN EXCEL (BULK)

Enter photo filename in Excel.
(No images in Excel)

Name	Photo Filename
Ravi Kumar	ravi_kumar.jpg
Priya Sharma	priya_sharma.jpg
Mohan Singh	mohan_singh.jpg
...	...

2 UPLOAD ZIP OF PHOTOS

Upload ZIP containing all photos with same filenames.

photos_q1_200.zip

3 STORED SECURELY IN AWS S3

All photos are stored in AWS S3 (encrypted, private & secure).

aws S3

- Encrypted at rest
- Private access
- High availability
- Auto backup

4 AUTO-MATCH & USE

System matches filenames from Excel and pulls images from S3.

Ravi Kumar
Photo: ravi_kumar.jpg
(Auto pulled from S3)
Matched

FOR BULK GENERATION

For 10,000 credentials, each credential auto-pulls the matching photo from S3 using the filename from the Excel row.

FOR INDIVIDUAL UPLOAD

Photo uploaded directly via app (camera or gallery picker). → Stored in AWS S3 → Secure link generated when credential is created. → Photo available in credential (via secure link, not public)

INNOVATIVE POINTS

- **Smart Template** — Auto-generates only required fields based on selected checks.
- **Real-time Validation** — Validates data format, duplicates & missing fields before upload.
- **Error Preview & Fix** — Show errors row-wise. Fix & re-upload only failed records.
- **Resume & Retry** — Pause and resume batches. Retry failed checks only.
- **Audit Trail** — Every action logged for transparency & compliance.
- **Scalable Architecture** — Handles 10K+ records seamlessly with high speed.

BENEFITS FOR ORGANISATIONS

- Upload thousands of records in minutes.
- Accurate data capture with zero rework.
- Real-time tracking & error resolution.
- Secure image storage with auto-match.

TruMarkZ
One Platform. Every Entity Verified.
Trust Built. Everywhere.

BENEFITS FOR CANDIDATES / ENTITIES

- Your data is accurate and verified.
- Your photo is secure and never misused.
- Your verified credential is always up to date.

Upload Right | Verify Fast | Data Secure | Trust Always | Scale Limitless

TRUST IS INFRASTRUCTURE.
TRUMARKZ BUILDS IT.

TruMarkZ

Verify Anything. Issue Trust. Share Everywhere.

STAGE 4 — VERIFICATION PROCESSING

Automatic API checks, human verifications by trusted partners, and real-time tracking until all results are collected.

- Automatic + Human Hybrid Verification
- Real-time SLA Monitoring & Alerts
- Unified Result Storage
- Accurate, Transparent & Compliant

STAGE 4 — VERIFICATION PROCESSING

13 API CHECKS RUN AUTOMATICALLY

For API-based checks, system calls government APIs instantly. Results stored in the unified verification record.

Examples of API Checks

- Aadhaar Verification
- PAN Verification
- Driving Licence Verification
- Education (via NAD)
- Employment (via EPFO)

System Calls Govt. APIs

↓

Results Stored Automatically

No human involvement needed. Instant & reliable results.

14 HUMAN VERIFICATION TASKS ASSIGNED

For manual checks, Super Admin defines the verifier (third-party agency). System automatically emails the verifier.

Examples of Manual Checks

- Address Visit
- Police Clearance
- Product Compliance
- Others (Custom)

Email Sent to Verifier

- Scope of Work
- List of Records (Excel Attachment)
- SLA Timeline
- Pricing: 70% of per-check cost charged to organisation

↓

Assigned Verifier

ABC Verification Services (Approved Partner) ★★★★★ Active

Verifier logs in and starts working on assigned tasks.

15 SLA MONITORING

Super Admin dashboard shows live status per batch with SLA tracking.

SLA Dashboard (Live)

Batch: Driver Verification Q1 – 200 Records

Verifier	Total	Completed	SLA Due	Progress
ABC Verifications	100	70	25 May	70%
XYZ Services	60	20	26 May	33%
PQR Solutions	40	10	24 May	25%

↓

SLA Progress (Example)

30% time remaining & batch incomplete

70% Time Elapsed — 30% Remaining

Automatic Alert Triggered!

Alert email sent to verifier when time remaining ≤ 30% and work is incomplete.

Super Admin Sees Red Alert on Dashboard

16 RESULTS COLLECTED

API results come in automatically.
Human verifier uploads completed Excel + evidence photos.
All results stored in the unified record.

Human Verifier Uploads

Completed Excel File + Evidence Photos (ZIP)

↓

Results Stored in Unified Record

- Same format for all checks
- API Results + Human Results
- Tamper-proof & Audit-ready
- Available for report generation

Every check result is validated, logged & securely stored.

VERIFICATION FLOW SUMMARY

Record / Entity → API Checks (Automatic) → Human Checks (Assigned to Verifier) → SLA Monitoring (By Super Admin) → Results Collected (Unified Record) → Report Generation (When All Complete)

KEY INNOVATIONS

- Hybrid Verification: API + Human
- Real-time SLA Monitoring & Alerts
- Unified Record for All Results
- Transparent, Trackable & Scalable
- Audit-ready & Compliance Friendly

STAGE 5 — FINAL REPORT GENERATION

17 UNIFIED VERIFICATION REPORT CREATED

Once ALL checks are complete for a record, the system auto-generates one unified report combining API results + human verifier results. Available as PDF download and live digital view.

All Checks Completed

Identity Verification (API)	Completed
Address Verification (Manual)	Completed
Education Verification (API)	Completed
Employment Verification (API)	Completed

Verify Anything. Issue Trust. Share Everywhere.

CREDENTIAL CREATION — TEMPLATES & QR

Credentials are NOT just for human workers. They work for products (organic fertiliser, silk, electric vehicles), services (driver safety), and individuals (skill tree resume). Different templates exist for each use case.

- One Platform. Any Entity.
- Templates for Every Use Case
- Bulk Generation for 10,000+ Records
- QR Verification in Seconds
- Dhiway Blockchain Secured

1. CERTIFICATE TEMPLATES (6 GOLDEN TEMPLATES)

Each template defines which fields appear on the front of the digital ID card.

#	Template	Designed For	Key Fields Shown on Card (Example)
T1	Workforce / Driver ID	Transport companies, security firms, logistics	Photo, Name, Designation, Service No., Licence No., Verified Checks, QR
T2	Healthcare / Nurse	Hospitals, nursing colleges, healthcare orgs	Photo, Name, Qualification, Registration No., Issuing Body, QR
T3	Education / Student	Colleges, universities, training institutes	Photo, Name, Course, Institution, Year, Credential ID, QR
T4	Product / Compliance	Manufacturers, agriculture, organic goods, e-commerce	Product Name, Batch No., Compliance Type, Issuing Org, Verified By, QR
T5	Service / Professional	Individual professionals, freelancers, engineers	Photo, Name, Skill/Service, Years of Experience, Verified By, QR
T6	Skill Tree Credential	Individuals building a verified digital resume	Photo, Name, Skills with verification nodes, Credential IDs, QR

TEMPLATES ARE FULLY CUSTOMISABLE

- Add / remove fields
- Choose order of fields
- Set branding (logo, color, banner)
- Add terms, validity & footer
- Save as default template for future use

WORKS FOR ANY ENTITY

People · Products · Services · Assets

2. FIELD SELECTION — CHOOSING WHAT GOES ON THE CARD (5–6 FIELDS)

Your Excel may have 10+ fields, but only 5–6 should appear on the certificate face.

1 PICK A TEMPLATE — Choose the template that matches your use case.

Select Template
- T1 Workforce / Driver ID
- T2 Healthcare / Nurse
- T3 Education / Student
- T4 Product / Compliance
- T5 Service / Professional
- T6 Skill Tree Credential

2 MAP FIELDS — Select which fields (5–6) will appear on the card. Others stay in the background report only.

Available Fields from Excel (10+)
- [x] Full Name
- [x] Designation
- [x] Service Number
- [x] Licence Number
- [ ] Date of Birth
- [ ] Address
- [ ] Emergency Contact
- [ ] Blood Group
- [ ] Joining Date
- [ ] Bank Account No.
- [ ] ...

Selected for Card (5–6)
- Full Name
- Designation
- Service Number
- Licence Number
- Verified Checks
- QR Code

Drag & Drop or Tick to Select

3 PREVIEW — See exactly how the credential will look with real data.

TM-TRN-2026-00394 Valid Till: 20 May 2026

4 APPROVE & GENERATE — Approve and generate credentials for ALL records in the batch.

Template & Field Mapping Approved!
Generating credentials for 10,000 records in background...
Status 76%
- Data Validation
- Photo Matching (S3)
- Credential Generation
- Blockchain Write (Dhiway)
- Completion Notification

3. OUR SUGGESTED APPROACH — BULK CREDENTIAL GENERATION (10,000+ RECORDS)

1 Data Source — Excel with all records + ZIP of photos (uploaded).

2 Photos Stored in AWS S3 — All photos stored securely in S3 (encrypted, private). Filename from Excel is used for matching.

3 Background Batch Job — Each credential generated individually in the background. You don't have to wait.

4 Blockchain Write (Dhiway) — Each credential is hashed & written to Dhiway CORD blockchain. Batched to reduce costs.

5 Notify When Ready — You get notified via email / SMS / in-app when all credentials are ready.

SMART HANDLING

- If photo is missing → record flagged for manual attention.
- Failed verifications → flagged & reported.
- Resume anytime. No data loss.
- Scalable to 1M+ credentials.

4. THE DIGITAL CREDENTIAL — WHAT IT LOOKS LIKE

SafeWay Transport Pvt. Ltd.

Powered by DHiway CORD Blockchain

BEHIND THE QR (FULL REPORT)

- **Full unified verification report**
- **API check results** (Aadhaar, PAN, DL, Education, Employment)
- **Human verifier results** (Address, Police, Compliance)
- **Evidence photos from field agents**
- **Dhiway CORD blockchain proof** Hash, Timestamp, Network, Integrity status
- **Credential status** VALID · EXPIRED · REVOKED
- **Permission-based access** Some sections gated behind ₹5–₹10 payment for privacy & sensitive data.

WHY TRUMARKZ CREDENTIALS?

- Trusted & Tamper-proof — Dhiway blockchain secured
- Instantly Verifiable — Anywhere, anytime
- Privacy First — Permission-based access
- Shareable — via QR or secure link
- Always Up-to-date — Real-time revocation
- Built for Scale — From 1 to 1 Million+

TRUST IS NO LONGER CLAIMED. IT IS PROVEN.

One Platform. Every Entity Verified.
Trust Built. Everywhere.

TruMarkZ

Verify Anything. Issue Trust. Share Everywhere.

QR SCANNING & PUBLIC VERIFICATION FLOW

Anyone can scan the QR on a TruMarkZ credential — from any phone camera. No app download. No login. Results appear in under 2 seconds.

- Open Camera. Scan. Verify.
- Instant Results in < 2 Seconds
- Public, Paid & Permission Based Access
- Dhiway Blockchain Secured

1 SCAN THE QR

Open phone camera (or TruMarkZ app). Point at QR.

Works from:

- Printed Card
- Phone Screen
- WhatsApp
- Email / PDF

2 SEE THE CREDENTIAL

Instantly shows: photo, name, credential ID, issuing organisation, and status badge.

3 SEE VERIFICATION SUMMARY

Breakdown of each check with status, date and verifying authority.

Verification Summary

Identity Check (Aadhaar)	Verified
Address Verification	Verified
Police Clearance	Verified
Driving Licence Check	Verified
Education Verification	Verified
Employment Check (EPFO)	Verified

Each check includes:

- Verified On (Date & Time)
- Verified By (Authority / API)

4 PUBLIC VS PAID ACCESS

Basic info is free. Full detailed reports require ₹5 – ₹10 payment.

BASIC INFO (FREE)

- Photo, Name, Status
- Summary of Checks

FREE

FULL REPORT (PAID)

Access full verification report with documents & evidence.

₹5 – ₹10

Secure payment via Razorpay

Pay & View Full Report

Razorpay

After payment, report downloads instantly.

5 DHIWAY BLOCKCHAIN PROOF

Tamper-proof proof of integrity stored on Dhiway blockchain.

Blockchain Proof

- Transaction Hash: 0xA1B2C3D4E5F6G7H8...
- Network: Dhiway CORD
- Timestamp: 20 May 2026, 11:30 AM IST
- Report Integrity: Verified, Not Modified

This report is tamper-proof and mathematically verified.

REAL-WORLD EXAMPLES

Traveller Verifies Driver

A traveller scans the driver's QR before getting in the cab.

- Driving Licence Verified
- Police Record: Clean
- Identity Confirmed
- Background Verified

She knows she is safe.

Buyer Verifies Organic Silk Product

Buyer scans QR on product listing.

- No Silkworms Harmed
- Organic Sourcing Verified
- 3rd Party Inspected
- Blockchain Recorded

He buys with full confidence.

5. SUPER ADMIN — CONTROL LAYER

The Super Admin (TruMarkZ Team) runs the platform, partners and ensures everything is on time and trustworthy.

1 VERIFY NEW ORGS

Review & approve new organisations using GST verification. Block suspicious registrations.

Target: Approve within 24 Hours

2 DEFINE VERIFIER PRICING

Set cost per check type (e.g. Education = ₹100 / check). Verifiers receive 70%. Platform keeps 30%.

70% Verifier | 30% Platform

3 ASSIGN VERIFIERS

For each manual check type + location, assign the right third-party agency. Their email is pre-set in the system.

4 MONITOR BATCHES

Dashboard shows all active batches with real-time status.

- Total Records
- Completed
- In Progress
- SLA Deadline
- % Complete

Status Overview

Batch	Records	% Complete	SLA Due
Driver Q1	200	70%	25 May
Nurse Batch	150	45%	24 May
Product Batch	500	80%	23 May

Red when 30% time remains

5 SLA ALERTS

System auto-sends reminder email to verifier when 30% of SLA time remains. Super Admin also gets the alert.

6 DISPUTE RESOLUTION

Review disputes raised by organisation or verifier. Examine evidence and make final ruling.

7 ACTIVATE PROJECTS

After verifiers confirm the job, Super Admin clicks 'Activate Project'. This triggers the organisation's notification that verification has begun.

8 PLATFORM HEALTH

Monitor API success rates, failed verifications, payment status, and overall system health from one dashboard.

INNOVATIVE IDEAS THAT MAKE TRUMARKZ UNIQUE

QR Works Everywhere
Scan from camera, WhatsApp, email, PDF, or print.

Permission-Based Access to Full Reports
Gives control to the credential owner.

Micro-Payment
Unlock detailed reports instantly via Razorpay (₹5–₹10).

Real-Time Revocation
If a credential is revoked, it shows instantly to everyone.

Share Securely
Share via secure link (expiry, view limit & watermark).

Always Up-to-Date
Status, validity, and revocation check in real-time.

Built for Scale
Handles 10,000+ records with background jobs & auto-scaling.

WHY IT MATTERS

- Builds trust in people, products & services.
- Protects safety, quality & compliance.
- Transparent. Secure. Tamper-proof.
- Trust is no longer claimed. It is proven.

TruMarkZ

One Platform. Every Entity Verified.
Trust Built. Everywhere.

TRUST FOR EVERYONE

Individuals | Organisations | Employers | Public | Businesses

Verify Anything | Share Anywhere | Pay Securely | Blockchain Secured | Privacy Protected

TRUST IS INFRASTRUCTURE.
TRUMARKZ BUILDS IT.
